())zapolymer. ())zapolymer. **Jampilen EP440L** ner.com

Description:

panizapur

panizat is a medium flow heterophasic "Jampilen EP440L" polypropylene copolymer with improved mechanical properties balance. The product features high stiffness and outstanding impact strength at low temperatures and is specifically designed for injection molding applications. In comparison with conventional copolymers with the same MFR and same rigidity, "Jampilen EP440L", exhibits 35 % higher toughness. "Jampilen EP440L" is suitable for a wide range of applications in the packaging, automotive and consumer goods industries. Typical applications include luggage, paint pails, buckets, panizapolymer.com containers, crates, batteries and large toys.
